

TS300 Programmable Digital Timer

BASIC OPERATION

The Leviton Programmable Digital Timer (TS300) provides energy saving control of indoor incandescent and fluorescent lighting as well as motor loads such as fans and circulating pumps. The TS300 features two presets that can be used to comply with ASHRAE 90.1 and 2016 Title 24, Part 6 requiring:

- Two hour timing for countdown timer switch
- Four hour timing for ASHRAE 90.1

The TS300 uses a timed override feature to allow lights and HVAC to remain ON for a specified amount of time to accommodate after-hours crews. The aesthetically-pleasing timer is easy to install and can replace any wall switch.

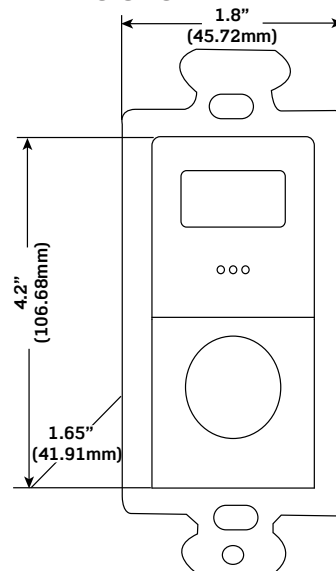

APPLICATIONS

- Restrooms
- Storage rooms
- Supply closets
- Janitorial spaces
- Small office

FEATURES

- Zero arc point switching
- Wallplate locks access to dip switches for tamper resistance
- Backlit LED
- Optional audible blink warning
- No minimum load requirement
- Adjustable time delay and sensitivity
- Dual 120/277 VAC operation
- Can be used to comply with ASHRAE 90.1 and 2016 Title 24, Part 6 countdown timer switch requirements, IECC, UL and cUL listed
