| Certifications              | cULus<br>FM       |
| Standard Packaging Quantity | 25 pc             |
| UPC                         | 78285639832       |

Setscrew must be tightened and torqued onto the sloped side of the I-beam.

Install in accordance with applicable code.

Recognizing that torque wrenches are generally not used or available on many job sites, the setscrew should be tightened so it contacts the I-beam and then an additional 1/4 to 1/2 turn added.
