

# SNSW Flanged Nut – SNSW37

- Ideal for retrofit projects, such as trapeze installations, where disassembly of the support system is not desired
- Use as a stopper when installing CADDY ROD LOCK assemblies
- Can be easily installed, removed, and repositioned at any location along the threaded rod
- Ready to use out of the box and eliminates multiple pieces of standard hardware
- Functions as a hex nut and flat washer combined
- Washer is wide enough to work with standard strut channel profiles

|                             |                   |
|-----------------------------|-------------------|
| Part Number                 | SNSW37            |
| Material                    | Steel             |
| Finish                      | Electrogalvanized |
| Static Load Safety Factor   | 3:1               |
