

NuTone's® Easy Wired Chime Upgrade!

If you're planning to redecorate, now would be a great time to change your door chime to match the new décor. Or have you ever wished your chime had a better sound quality? Maybe your existing chime doesn't work anymore? NuTone has a wide selection of wired chimes you can select from to replace your old one in as little as fifteen minutes.

Upgrade your existing 2-note wired door chime with these simple steps.

1) Turn off power to the door chime.

2) Remove the chime cover and label wires (front, rear, transformer).

3) Remove wires from terminals before removing chime base from wall.

4) Attach new door chime base to wall after feeding wires through the chime mechanism.

5) Connect wires to terminals, install cover and restore power.*

*When upgrading from a 2-note chime to a NuTone 4 or 8-note chime, it will be necessary to add two nine-volt batteries.

Exclusions: Models BK147LWH, LA14WH and LA174WH are recessed (installed inside the wall). Model LA70MA requires an additional wire run from the transformer to the chime to provide adequate power.

NuTone® Collection of Wireless Door Chimes

Wireless Chime Advantages

- Easy to install, no wires to run
- Adjustable volume on some models
- Portable... move it wherever you need it

No wires, no problem!

NuTone's wireless chimes install in just minutes, with no wires to run. You can choose a plug-in strobe chime for the garage, a portable battery-operated model for upstairs, and another chime anywhere in between, because they're all compatible with each other. Our portable styles can go with you, so visitors won't be missed even when you're out on the deck! All models feature adjustable codes to avoid interference from a neighbor's wireless chime, and all chimes have unobstructed operational distances of 150 feet. LA532RW and LA533WH have an unobstructed operational distance of 300 feet. Easy installation, reliable operation and great sound. Expect nothing less from a NuTone wireless chime.

Portable

The art of convenience.

NuTone makes your life easier. Our portable chimes can go with you, so visitors won't be missed even when you're out on the deck! Contemporary designs feature an adjustable volume control and include a wireless pushbutton.

Portable Pilot™ Wireless Chime LA533WH

Bigger, noisier homes with electronics, personal computers and surround sound theaters make it harder to hear when a friend is at the door. NuTone brings you the Pilot door chime, offering a soft non-obtrusive design to hang or stand on a flat surface. CD-quality sound reproduction and volume control assist in providing a pleasant notification in multiple home locations. Add more doors with additional NuTone wireless pushbuttons.

Features adjustable volume control.

Dimensions:

6" x 7 5/8" x 2 3/4"

Unobstructed operational distance: 300'

Peace & Quiet Simplicity with Function

Americana™ Wireless Chime LA532RW

Created with inspiration from timepieces, the beautiful Americana door chime brings the charming warmth of wood together with the wireless technology of today. This NuTone chime features wood and brass design simplicity with volume control and CD-quality Westminster sound reproduction. Add more doors with additional NuTone wireless pushbuttons.

Features adjustable volume control.

Dimensions:

9 1/4" x 6 7/8" x 2 3/4"
