# Miller Revolution™ Construction Harnesses

A construction site is a tough environment, however the design and materials used on these construction harnesses are up to the task.

Designed to meet the durability, all-day comfort and safety requirements while working at heights on a construction site, the new **Miller Revolution Construction Harnesses** offer the same key features (see page 7) that have made the original Miller Revolution Harnesses the most comfortable and user-friendly products available.

- Miller Revolution Construction Harnesses use heavy-duty webbing that is almost twice as strong as the standards require, and is certain to provide the longest service life possible
- New back/shoulder padding allows optimum air flow, while providing all-day comfort, even in the shoulders when carrying a full load of tools
- Innovative Cam Buckles provide easy, one-hand adjustment
- Rated to 400-lbs. (181.4 kg) capacity

**Integrated Back/Shoulder Pad**  
New back/shoulder padding allows optimum air flow, while providing all-day comfort

**Heavy-Duty Webbing**  
For durability on the construction site

**Cam Buckles**  
Provide easy, one-hand adjustment

Prevent Suspension Trauma!  
(See pg. 18 for details)

HARNESS SIZING CHART

# Miller Revolution™ Harnesses with Integrated Waist Connection

**New!**

1015604

## CUSTOM DESIGNED FOR LADDER CLIMBING

### FEATURES:

- Ladder attachment point at waist (*specific models only*) allows for a relaxed climbing position, creating a smooth system operation during vertical climbs; prevents system lock-up
- Maximum user comfort = better worker compliance
- Allows for multiple connection methods
- For use with rail, ladder and cable systems
- Meets applicable OSHA, ANSI and CSA Standards
