PE24RSVA

READYSET™ 24-VOLT ELECTRONIC VALVE ACTUATOR

ReadySet is an easy-to-set electronic valve actuator that mounts to 2-way or 3-way diverter valves, the type typically used for in-ground pool and spa combinations. A time-saving upgrade, it helps installers quickly establish valve position set points through its simple toggle-switch interface.

Features & Applications

Features

Applications

- Establishes valve set points using a simple toggle switch
- Compatible with virtually all pool and spa flow control valves and automation systems
- Valve position can be set at any point in the rotation (electronic valve set points are incremental and not dictated by less accurate mechanical cams)
- Molded-in scale indicates valve position setting, handle also acts as a visual valve position indicator
- Multi-colored LED light indicates Setting Mode and power ON
- Audible beep also indicates valve position has been set successfully
- Handle allows for manual valve operation in the event of a power outage
- 30' cord
- Water Features
- Solar Heating and Cooling
- Laminar Jets
- Bubblers
- In-Ground Pools and Spas
- Pool and Spa Combinations
- Rainwater Collection Systems
- Decorative Fountains
