BREAKAWAY NUTS – STEEL ZINC AND ALUMINUM

The following Specification Sheet applies to all **Breakaway Nuts – Steel Zinc and Aluminum** in our **TP series**.

Size	A Diam.	B (Overall Height)	C (Nut Height)	D Hex (in inches)
10-24	.438	.390	.180	7/16
1/4-20	.563	.470	.220	9/16
5/16-17	.625	.500	.220	5/8
3/8-16	.750	.580	.250	3/4
1/2-13	1.000	.750	.350	1

Description	Break-Away nuts are designed to prevent unauthorized removal of, and secure access to, equipment and facilities.
Advantages	Break-Away nuts are suitable for applications where removal of a fixture is not intended and when prevention of tampering is important. After tightening to the proper torque, the hex head breaks away (see above) leaving a conical shaped tamper resistant nut.
