

5-7/8" Ferrous Metal Blade

Milwaukee® metal circular saw blades were specifically designed to exceed the expectations of contractors for blade life, cut quality, and speed in the most demanding metal cutting applications – without a lubricant. A hand-tensioned, hardened alloy steel body extends blade life and delivers the highest quality cuts available. Carbide tipped teeth with Alternate Top Bevel grind shear through metal leaving burr-free, cool-to-touch cuts. Designed for use with the M18 FUEL™ Cordless 5-3/8"-5-7/8" Metal Saw, these blades feature a thin kerf that reduces the amount of drag and resistance while cutting, resulting in more cuts per charge.

INCLUDES:

[\(1\) 5-7/8" Ferrous Metal Blade \(48-40-4080\)](#)

FEATURES:

- Dry Cuts: Eliminates the need for lubricants, saving time and money
- Cool Cuts: reduces heat build-up in cut material, leaving material cool to the touch and able to be handled right away
- Clean Cuts: Eliminates burrs, leaving safer to handle material and no need to clean up after cut

PRODUCT SPECIFICATIONS:

Tooth Grind	ATB
Number of Teeth	30
Kerf Thickness	.063"
Arbor Size	20mm

Application	Metal
Hook Angle	0°
Max RPM	4,500
Diameter	5-7/8"
