

24” I-Beam Level

The Empire® Level 24-Inch Aluminum Level is a precision measuring instrument built for strength, light weight, and ease of use. The high-density beveled plastic rounded end caps safeguard the tool from damage due to harsh jobsite conditions. The three durable acrylic vials are protected by the rugged I-beam construction and a window on the top surface allows the center vial to be viewed from above. The Empire Level 24-inch aluminum level is built with quality in the USA using machine screws instead of rivets or snaps. Grip zones provide comfortable ergonomic handling and three large hang holes allow for easy storage. Professionals will recognize the distinctive blue anodized Empire finish and be confident in the value only a quality tool can offer.

INCLUDES:

(1) [24” I-Beam Level \(580-24\)](#)

FEATURES:

- Durable acrylic vials
- High-strength magnetic edge for hands-free use on pipe and other materials
- Impact resistant endcaps protect frame and vials
