

36" Magnetic I-Beam Level

The Empire® Level 36-Inch I-Beam Magnetic Level is an accurate instrument built for strength and ease of use. It's lightweight, durable I-beam design and all metal frame ensure it holds up to even the harshest job conditions. High-impact rounded plastic end caps protect the tool and your work materials. The 36-inch length allows measurements spanning two framing studs. When working with ferrous metal surfaces such as conduits, the magnetic strip on the lower surface allows for hands-free operation. The Empire Level 36-Inch I-beam magnetic level is assembled with machine screws for long-lasting strength. The three durable acrylic vials, one level and two plumb, are protected by the tough I-beam frame. A viewing window on the top surface allows the center vial to be seen from above. Grip zones provide comfortable ergonomic handling and three large hang holes allow for easy storage.

INCLUDES:

[\(1\) 36" Magnetic I-Beam Level \(581-36\)](#)

FEATURES:

- Durable acrylic vials
- High-strength magnetic edge for hands-free use on pipe and other materials
- Impact resistant endcaps protect frame and vials
- Ergonomic, grip zones enhance comfort and portability
