

## Ti-Bone Milled Replacement Face with Bolt Kit

The STILETTO® TiBone™ TBII-15 Milled Replacement Face with Bolt Kit is a complete repair solution for Stiletto TBII-15 hammers. It includes all the parts and tools needed to replace a worn or damaged hammer face, so you can get back on the job quickly. The Stiletto TiBone TBII-15 milled replacement face features sturdy steel construction that stands up to daily use. It also protects titanium hammer components from impact damage and wear. The hammer face's milled surface grips nail heads firmly, even when struck at odd angles, making it an ideal choice for framing work and rough carpentry. The Stiletto milled steel replaceable face also has a pre-cut groove designed for use with the TBII-15's magnetic nail starter.
