

## 40cm x 60cm TRUE BLUE® Laser Etched Framing Square

The EMPIRE® LEVEL 40cm x 60cm Professional Framing Square is suitable for uses in the construction and building industries by professional and DIY enthusiasts alike. This tool creates accurate cuts that are square and level when performing hip and roof framing. This square has deep, permanently stamped, white numbers with high visibility and long-lasting graduations. The dimensions of the square feature a 40cm x 60cm body with a 16-inch x 1/2-inch tongue and a 1/8-inch thickness. The square weighs 15.2 ounces and comes in either blue or black, randomly picked at time of shipment. The body of the tool is constructed of anodized aluminum that will not rust.
