

**Accessories****BY-PASS PLASTIC TUBE - 3/4 IN**

Catalog #: 967-3

APPLICATIONS

Use when running wire through conduit with multiple, in-series junction boxes. Eliminates starts and stops of running wire through conduit at each junction box.

PRODUCT FEATURES

Made of soft, plastic material to facilitate installation with 1/2 in. and 3/4 in. fittings in junction boxes
Can be used in 4 in. square and octagon junction boxes
Installed BYPASS facilitates wire runs through multiple junction boxes eliminating the need to begin new run with each junction box
Product has perforated, lengthwise slit allowing product to be easily removed when wire run has been completed
Remove BYPASS, pull and cut wire in junction box to length, install covers and devices
