

► Model BPL26ST

Battery Powered Strobe Warning Light

Federal Signal's Model BPL26ST is a portable, battery-powered strobe warning light which flashes 60 times per minute. Its components are moisture-proof and reverse polarity protected to ensure extended battery life and trouble-free performance.

The BPL26ST dome is made of impact-resistant polycarbonate and the base is constructed from a high-density polyethylene. A flexible rubber seal covers the on/off switch to protect it from the elements. Two magnetic pads (not shown) are included for simple, yet secure, temporary mounting. Power is supplied by two standard 6VDC, spring terminal lantern batteries (not included).

The Model BPL26ST is ideal for job sites requiring temporary warning lights or for any location where primary power is unavailable.

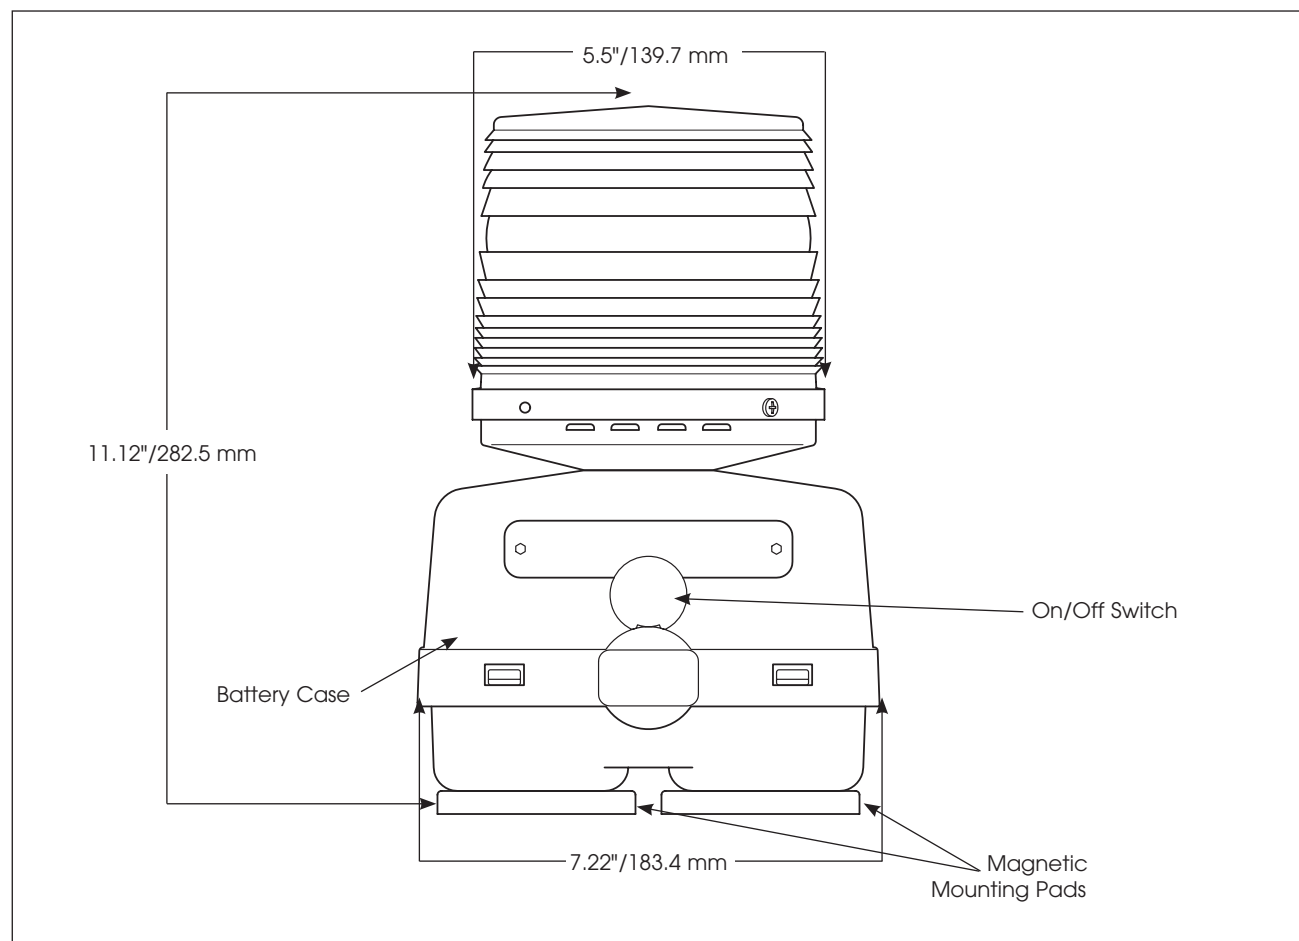

FEATURES

- 12VDC — uses two standard 6VDC lantern batteries (not included)
- 4,000 hour strobe tube
- Type 3R weatherproof enclosure
- Five dome colors: Amber, Blue, Clear, Green and Red
- Magnetic mount
