JSPR - 120

HEAVY DUTY FOR SERVICE ENTRANCE APPLICATIONS

FEATURES AND BENEFITS

- Listed to UL 1449 3rd Edition for a Type 1 and Type 2 SPD application.
- **Compact design to allow the SPD to be recessed into the wall.**
- Fail-safe design with individually fused Metal Oxide Varistors (MOVs) eliminating single point failure, protecting against both overcurrent and overvoltage events.
- 200kAIC short circuit rating permits direct bus connection to most electrical services.
- Low let through voltage ensured by the lowest possible impedance path to ground and equal current sharing during surge events.
- 10-year standard warranty with optional 15-year extended warranty.

All JSPR™ systems measured limited voltages are peak values ($\pm 10\%$) measured from the zero reference point and are in compliance with test and evaluation procedures outlined in NEMA LS1-1992 (2000), paragraphs 2.210 and 3.10.

THE JSPR DESIGN ALLOWS FOR IT TO BE RECESSED INTO THE WALL.
