Installation Information

⚠ WARNING

Turn power off before installing or removing terminal. All electrical work should be done according to appropriate electrical codes.

UL Listed and CSA Certified for use on stranded copper (AWG) wire only.

One crimp with the proper tool and dies, centered between stripes on the barrel, secures the inserted stripped conductor.

Engineering Specification

Crimp-type connectors shall, electrically and mechanically, connect permanently to the pre-stripped ends of two stranded copper wires.

The connector line shall offer barrel variations in wire (AWG or MCM) size (#2 to 250 MCM). The connector line shall have regulatory agency coverage (UL Listing). The connectors shall be marked with the wire range and manufacturer's symbol (↑) and catalog number.

The non-insulated, seamless butt connector shall be tin-plated, annealed copper, having a double-length, round seamless barrel, with a center stop, sized for specified (AWG or MCM) wire range (2 AWG thru 250 MCM).
